AXP365 Update Assessment™

Cloud solutions require multiple updates per year that may lead to changes and therefore major risks. Pharmaceutical and Life Sciences companies now have the opportunity to mitigate the risk associated with each update with **AXP365 Update Assessment™** which has been specifically designed to evaluate changes with the purpose of minimizing their impact.

New features are constantly added to the ERP, increasing the value of the system and the possibility it offers to respond to new business challenges. **AXP365 Update Assessment™** also helps identify the business opportunities that every update brings.

Extensive Control over the risks and opportunities that arise from new functionalities, enhancements, and related changes can be achieved using AXP365 Update Assessment™.

AXP365 Update Assessment™ will ensure that the intended system use is maintained, by assessing risks and driving risk mitigation activities. It will also allow your business to exploit the new functionalities introduced by Microsoft in the ERP system – focusing on your processes.

DESIGNED FOR THE PHARMACEUTICAL AND LIFE SCIENCES INDUSTRIES

Computer Software Assurance requires an assessment to evaluate the risks related to each update. AXP365 Update Assessment™ provides critical information to evaluate the impacted areas and modules of the system.

KEY BENEFITS

Risk Assessment

Gain a holistic overview of the content and impact of any update of Microsoft Dynamics 365 for Finance and Supply Chain Management.

Risk Mitigation

Assess the Risks associated with any update of Microsoft Dynamics 365 for Finance and Supply Chain Management.

Reduce the Testing Effort by Focusing on High-Risk Modifications

Mitigate the Risks associated with the changes the update introduced that may impact your designed process. A risk mitigation proposal is always at your disposal.

Assessment on the involved processes

Reduce and Focus Your Testing efforts on the critical areas and processes impacted by the update.

Fast to learn

Enjoy a code-free experience by using the intuitive interface of the AXP365 Automated Testing™. Any user can experience the full breadth of the tool functionality without ever seeing a line of code. Loops, field validation, values comparison, conditional steps, and many other functions are as simple as they can get to enable anyone to create even the most complex scenarios.
